What is the Apple Beta Software Program?

The Apple Beta Software Program lets you test-drive beta software and provide feedback to help us make it even better.

How do I participate?

Sign up today with your Apple ID to access the latest public beta release. Then install the beta software and start using it. When you come across an issue that needs addressing, report it directly to Apple with the built-in Feedback Assistant application.

What else do I need to know about using beta software?

Before you install beta software, please be sure to back up your Mac using Time Machine or your iOS device with iTunes. The public beta software is still in development, which means some applications and services may not work as expected. You should not install beta software on production or business-critical systems. We strongly recommend installing on a secondary system or device, or on a secondary partition on your Mac.

From your iOS device, go to betaprofiles.com to download the configuration profile. But remember that iOS 15ã, at this stage i the Apple's Beta of Apple The ÅApple ÅBeta programÅ software isn't ready for prime time yet, so if you download the iOS 15 beta, Å you'll get a first look at all the new features but you'll also experience bugs and glitches. All you need to do is go through the Delete Profile page, which has all the instructions for each of your devices. Should anything happen while beta testing iOS 15, you'll need to restore that backup to your iPhone. You will also see a Feedback Åapp on your Home screen; this app allows you to report any issues or bugs in the software directly to Apple. There's also a Restore guide if you're interested. How to Restore Your iPhone Å ÅRevert to iOS 14 If you want your phone or tablet back to how it was before you downloaded and installed iOS 15 ÅBeta, you'll need to restore your device from the backup you made prior to your beta fling. Your iPhone Å will go to a black screen with the Apple logo and a progress bar; the device will reset once the update completes. Å Å You'll notice a new app called Feedback; this is where you can report bugs and glitches to Apple. You don't have to wait until ÅiOS 15 Åis Åreleased to the public! That means you'll see the best new features first. Tap the Configuration Profile for ÅiOS 15 ÅBeta. Read This First If you're going to sign up for Apple's public beta testing. I highly recommend using a secondary device. Follow the link provided Åor tap Download profile to download the configuration profile, then tap ÅAllow. Å Å Open the Settings app and tap Profile Downloaded. To do this: Open the ÅSettings app Åon your iPhone. Accept the terms, sign in with your Apple ID and you're good to go! Welcome to iOS 15 ÅPublic Beta! Å If you want to downgrade from ÅiOS 15 ÅBeta, it's possible to uninstall the beta software and leave the beta program. A window comes up that informs you you'll need to restart your device; Å ÅRestart.
